

VOLUNTEER POLICY AND FORM

As a volunteer of Partners for A Greater Voice, Inc. you will work as a team member on projects our organization initiates and supports. This involvement requires a collaborative approach and is directed by what the board of directors and executive director of the organization deem most appropriate. While we welcome and want to invite many volunteers to join our initiatives, our international programs are often customized to align with our philosophy and to meet the local needs of schools, parents and communities. Thus, our training programs and missions differ, and we may require a specific set of skills and expertise for a particular training initiative. If a current project does not match your skill set, then we may contact you for future projects that require your expertise. Please complete this form and submit as soon as possible. We look forward to working with you and sharing in this exciting and rewarding experience.
